

Greetings Hoopa Valley High School Families,

Welcome to Hoopa Valley High School. I hope that you all are finding peace in these uncertain times. This year has presented new challenges in navigating these difficult waters, we are committed to assisting your child in maximizing their academic capabilities and developing into responsible and compassionate young adults. In light of what school currently is, it will take the cooperative effort of us all to ensure that our kids are prepared for the world they will inherit. To this effort, our high school staff want to thank you for your steadfast support.

There have been many changes this year at HVHS. We have a new Assistant Principal, Douglas Becksted, who is excited to develop long lasting relationships with all of our students. Our Library has new staffing and positive changes are in the process of being completed. We also have a new History, Math, English, and two P.E. teachers for this 2020-2021 school year. Even our front office has new personnel eager to assist you in all areas of school life. Overall, though we all face new hurdles that must be overcome, we are very optimistic and excited here at the high school about the direction we are heading in. With our WASC planning and site planning ongoing, we are recreating who we are as Warriors. The Athletic Department has brought on Jose “Augie” Valdez to continue down our path of revamping the HVHS Athletics Department. He has already made a positive impact on our school with some of the exciting new ideas he brings to our site. Though sports are still an unknown, as well as in person classes, we will be prepared for whatever journey lies ahead.

Along this educational path it is our goal to keep you informed, engaged, and updated. The high school webpage is updated regularly and is also an excellent source of information. Upcoming announcements are also posted on the Marquee in front of the school, the KTJUSD Advocacy and Willow Creek Bulletin Board Facebook pages, and robo calls are sent out as well. Please never hesitate to contact the school with any further questions or concerns that may arise. We wish you well and we look forward to nothing more than getting students back on campus to engage with staff that truly care and miss each and every one of them.

Thank you,

Craig Cornelson
HVHS Principal
